Education

Cebu Technological University

Bachelor of Science in Information Technology

Expected July 2026

Cebu City, Philippines

Experience

Project Management

Cebu Technological University

Feb 2025 – Oct 2025

Cebu City, Philippines

- Led the development of BARIOS, a **Barangay Management System** for San Roque (Ciudad), Cebu City.
- Optimized barangay workflows by deploying an integrated digital solution, reducing manual workload by 90% and significantly enhancing staff performance.
- Partnered with key stakeholders and the development team to ensure the delivery of reliable, user-centered software.

Technical Training Instructor (Student Role)

Barangay San Roque (Ciudad)

Aug 2025 – Oct 2025

Cebu City, Philippines

- Delivered hands-on digital literacy training as a student instructor for the **BarangayConnect Training Program**, supporting technology adoption among local residents.
- Demonstrated key features of the barangay management system and explained its benefits to non-technical users.
- Conducted practical training sessions to evaluate and improve participants' computer literacy and system usage skills.

Projects

Barangay San Roque (Ciudad) | *Web, Mobile*

React, TypeScript, Django, PostgreSQL

- Built a full-stack barangay management system with automated document generation and pre-filled certification templates, reducing manual processing time by 80%.
- Designed a centralized PostgreSQL database with real-time REST APIs, enabling seamless data access across web and mobile applications.

Face Recognition Profiling

React, JavaScript, Python, Node.js, NoSQL

- Developed a facial recognition system for identity verification and profiling using the **FaceNet** deep learning model.
- Implemented a secure database for storing and managing facial embeddings and user data, ensuring data privacy and compliance.

Technical Skills

Languages: Python, Java, JavaScript (TypeScript), SQL, NoSQL, HTML, CSS

Frameworks: React, Django, Node.js, Flask, TailwindCSS

Databases: PostgreSQL, MySQL, Supabase, MongoDB

Developer Tools: Git, GitHub, VS Code
